

Off Highway Remanufacturing

TransAxle
National Capabilities. Delivered Locally.

It's What's Inside That Counts!

TransAxle, with 24 distribution centers and 7 remanufacturing facilities located throughout the U.S., specializes in remanufacturing transmissions, axles, differentials, final drives, hydraulic pumps and brake components used on Haul Trucks manufactured by Caterpillar, Komatsu, Volvo, Michigan, Terex, and Euclid.

We use only genuine components and our technicians are factory trained by the component manufacturers.

All remanufactured components are tested to OEM specifications.
